# A major actor in O.E. column switches

100% of Valeo IAM switch range is O.E. quality

valeorigin

- ▶ The Valeo offer includes single levers and complete modules
- NEW** ▶ Clocksprings
- ▶ Wide range in IAM for French and Italian brands, newly available applications for German manufacturers in 2014
- ▶ Range in  & 2013-2014 catalogue

## Safety & comfort products

The turn signal, wiper and lighting functions play a key role in enhancing driver safety. If the switches are broken, they must be replaced in line with vehicle inspection centre specifications. It is highly recommended to replace them with original products.

## Advantages of Valeo offer

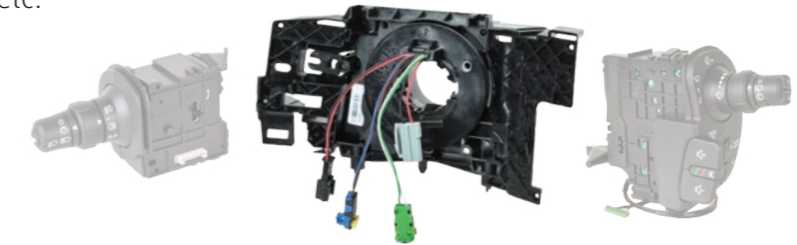

- ▶ High-value products for garages, especially when the complete modules have to be replaced.
- ▶ Average fitting time is one hour, using the vehicle manual.
- ▶ Replacement without electronic re-initialization or specific tools.

## Clocksprings

The clockspring enables the steering wheel to turn while maintaining the electrical connection between the steering wheel airbag, horn etc. and the vehicle's electrical systems. It is generally located between the steering wheel and the steering column.

For Renault Scénic II

- ▶ 251639 Lighting Switch
- ▶ 251642 Clockspring
- ▶ 251638 Wiper Switch

### Available for

DACIA ▶ Logan  
RENAULT ▶ Scénic II, Mégane I, Laguna II, Espace, Clio II, Master II, Twingo II
